

Himachal Pradesh RRA Network - NCNF

Vulnerabilities

•Marginal land holding

•Women Farmer centric

•Rainfed

•Fragile Ecology

•Climate change impact

70% dependent on Agri and allied

•90% population – Rural

Himachal Pradesh RRA Network - NCNF

25-member organizations and individual across the state

01 Climate Mitigation and Income enhancement

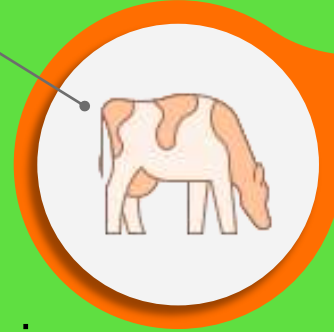

02 Integrated Mountain Natural Farming

03 Extensive Livestock System

04 Comprehensive Springshed Management

Integrated Mountain Agrarian System

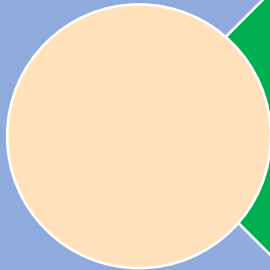

EXPERIENCES

System of Crop Intensification
Biodiverse Mountain Natural Farming

Backyard Poultry System
Small Ruminates
Indigenous and Extensive Livestock System

Women Land Rights
Rights for Pastoral Communities
Community and Individual Forest Rights

Participatory Fodder Development (Silvi Pasture model)
Multiple Livelihood Programs in Convergence
Revival of Critical Mountain Springs

Key Competencies - Implementation

•Awareness and community mobilisation

•Capacity enhancement of farmers

•Providing hand holding support

•Facilitating TOTs

•Standardizing the crop wise natural farming practices

Follow Up and monitoring

•Association with Agriculture University - Palampur

Key Competencies - Implementation

A scenic landscape featuring terraced fields, a small stone house, and mountains in the background under a blue sky with clouds. The foreground shows a lush green hillside with scattered rocks and a few small trees. The middle ground is dominated by a series of terraced fields, some of which are filled with water, creating a shimmering effect. A small, simple stone house with a brown roof is situated on the left side of the terraces. In the background, a dense forest of tall, thin trees covers a hillside, and further back, a range of mountains is visible under a bright blue sky with scattered white clouds. The overall scene is peaceful and idyllic.

Thank You!!!
